COVERAGE: 15 pounds of SWARD Basic Training 7-7-7 Fertilizer covers 5,000 sq. ft. at the application rate of 0.21 lbs. of nitrogen (3.0 pounds of fertilizer) per 1,000 sq. ft.

7-7-7

GUARANTEED ANALYSIS

TOTAL NITROGEN (N)	7.00%
4.26% Urea Nitrogen*	
2.74% Ammoniacal Nitrogen	
PHOSPHATE (P ₂ O ₅)	7.00%
POTASH (K ₂ O)	7.00%
CHLORINE (Cl)	5.25%
DERIVED FROM: Ammonium Phosphate, Muriate of Potash, Urea	
ALSO CONTAINS NONPLANT FOOD INGREDIENTS:	
Humic Acid (derived from Leonardite)	1.00%
Total Other Inert Ingredients (as nonplant food)	72.75%

In the state of MD, NH, NJ, and VA DO NOT exceed 0.7LB of nitrogen per 1,000 SQ. FT.

DIRECTIONS FOR USE

For new landscape plantings, evenly apply up to 0.30 lbs. per 100 sq. ft. depending on crop and soil analysis. Work into the soil to a depth of 6 inches. Once plants are established apply additional fertilizer based on County Extension Service recommendations. Apply fertilizer evenly and do not apply fertilizer directly to plant foliage or stems. Water in after application.

For shrubs, spread fertilizer evenly at a rate of up to 0.30 lbs. per 100 sq. ft. of bed area. The fertilizer should be kept away from the base of shrubs. Water in after application.

For trees (including palm), apply 0.86 lbs. of fertilizer per inch of trunk diameter at chest height (4" diameter tree = 3.43 lbs. of fertilizer) evenly under the canopy of the tree. An alternate method is to auger holes 6 to 8 inches deep in a grid pattern. Keep holes at least 3 ft. from the base of the tree. Place fertilizer in holes, evenly applying the appropriate amount of fertilizer under the canopy of the tree using 0.86 lbs. per inch of trunk in diameter at chest height (a 4" diameter tree would require a total of 3.43 lbs. of fertilizer). Then finish filling the holes with dirt. Using either method, no more than 3.00 lbs. of fertilizer per application should be used per 1,000 sq. ft. of ground area. Water in after application.

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands on the driveway, sidewalk, or street back onto your lawn. This product may stain driveways, walkways, streets, porches, and other non-target areas. Do not apply to frozen ground.

WARRANTY

Turf Care Supply Corp. warrants that this product conforms to the analysis on its label. When used in accordance with label directions, under normal conditions, this product is reasonably fit for its intended purposes. Since time, method of application, weather, plant and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.
